SUMMARY

Full Stack Web Developer with a strong mind for recognizing patterns, which was learned through studying voting behaviors in political science. An effective leader, who strives for synergy and cooperation while developing an app. Known for fostering a creative and productive work environments, in which programmers can thrive.

TECHNICAL SKILLS

Languages: HTML5, CSS, JavaScript, Node.JS
Applications: Bootstrap, Semantic UI, jQuery, Github

PROJECTS

What do you want to eat? App | https://github.com/mms211/What-Do-You-Want-To-Eat-App | https://mms211.github.io/What-Do-You-Want-To-Eat-App/
- The app that takes choice out of where you are going to eat, simply choose a type of cuisine, hit search and let the app choose a random restaurant near your current location.
- Took a leadership role in designing and formulating the idea for the app. Managed the geolocator feature as well as the API calls. Created the functions which sorted through the JSON response to display it on the page.
- HTML5, Javascript, jQuery, ,Zomato API, CSS, Foundation

EXPERIENCE

College and Career Coach (Overbrook Highschool)   2019 – 2020
PromiseCorps   West   Philadelphia, PA

Worked with highschool students on developing their post-secondary road map, whether it be college, technical school, or entering the job-force, functioning very similarly to a school guidance counselor. Involved communicating effectively with superiors, de-escalation techniques, conflict resolution, event and trip planning, counseling, tutoring, interpersonal skills.

Key Accomplishments:
- Certified youth mental health counselor
- Certified in de-escalation techniques
- Created a coding club for Seniors and Juniors focused on entry level web design
